

DIPPING MACHINE

- Heavy duty MS fabricated frame & Body • Easy to operate & user friendly • Smoothly Running • Much Chemical Saving • Low Maintenance
- Reducing Labour Cost • Not required skill labour • Roller slide make part to part so easy repairable

(Automatic Machine Also Available)

MODEL	MANUAL DIPPING MACHINE	FULLY AUTO DIPPING MACHINE
No.of roller	12 Nos.	12 Nos.
Roller diameter	160 mm with neoprene rubber coating	160 mm with neoprene rubber coating
Pump	Branded 1 Hp centrifugal pump for lifting a chemical from tank to roller	Branded 1 Hp centrifugal pump for lifting a chemical from tank to roller
Con. drive gearbox	2 HP, 50 RPM	2 HP, 50 RPM
Sheet thickness adjustment	By manual	By Aromatic directly form main control panel
Total power requirement	3 HP	4 HP
Chemical tank	Heavy duty MS or SS sheet or Plastic (optional)	Heavy duty MS or SS sheet or Plastic (optional)
Chemical heating system	Electric heater or oil coil (optional) for heating chemical	Electric heater or oil coil (optional) for heating chemical
Electrical Heater Power	10 HP (Two Pieces)	10 HP (Two Pieces)
